Objective: To familiarize student with the procedure of inspecting a timing chain or timing gears for excessive wear (slack).

Procedure: Document vehicle. Record procedures as described below.

Vehicle: ________________________________________________

☐ What is the maximum allowed timing chain / gear backlash?

☐ What can happen if timing chain / gear slack is excessive?

__________________________________________________________________

☐ Measure and record timing chain / gear slack (backlash).

☐ Describe in detail method used for inspection.
